

Niki Glassmire is an Associate Partner within IBM Global Business Service (GBS) Public Services Sector Cognitive Solutions Practice where she is responsible for delivery of our Cognitive Projects Portfolio. Additionally, she is responsible for growth in our Defense and Intelligence business where she manages 30+ Public Sector Cognitive Consultants delivering cognitive and artificial intelligence projects in both classified and unclassified realms. Niki has proven abilities in complex project management, process improvement and implementation, and strategic design. She uses outstanding leadership and communication skills to build trusted relationships and deliver innovative cognitive business solutions. Outside of work, Niki loves to explore the outdoors and travel with her husband and young daughter.
